

# Agency Budgets And Other Priorities For Fiscal Year 2000: Hearing Before The Subcommittee On Water R

## QFRs and IFRs

Committee: Senate Committee on Appropriations  
Subcommittee on Defense  
Hearing Date: March 5, 2008  
Hearing: Fiscal Year 2009 Navy Posture Hearing  
Member: Senator Inouye  
Witness: Secretary Winter, ADM Roughhead  
Question: #11

### Virginia Class Submarine

Question: Admiral Roughhead, last year the appropriations conference added \$588 million above the budget request to accelerate the procurement of two submarines per year. I understand the Navy now plans to begin procuring two submarines per year in FY 2011. What effects will this have on the Navy's overall shipbuilding plan? Secretary Winter, would you comment on the procurement plan for the Virginia Class?

Answer: Procuring two submarines per year one year earlier (FY 2011 vice FY 2012), will reduce the number of years the SSN force structure is below 48 from 14 (per FY 2008 shipbuilding plan) to 12 years.

The 30 year Shipbuilding Plan is the best balance of anticipated resources to the Navy's force structure requirements. Having less than 48 attack submarines (from 2022 through 2033) is not ideal, but the long-term risk is manageable as part of a stable, properly balanced shipbuilding plan.
